

Fantasy RPG Weapon Bundle - FREE Collection 0

The Fantasy RPG Weapon Bundle - FREE Collection 0 is a FREE package of +15 weapons, including swords, daggers, claws, bows, bells, sura swords And More. This bundle is designed specifically for fantasy RPG games, and the weapons are suitable for both heroes and villains.

Features

- sets of weapons, each with a unique design and texture
- 5 unique weapons, each with its own design and texture
- In total, the bundle includes a total of 15 weapons
- FBX files included for each weapon
- Basic features for changing texture color
- Fully customizable for your game's needs
- Suitable for a wide range of game genres
- Compatible with mobile and desktop platforms

- examples scene included ALL weapons for easy setup and usage

Usage

To add a weapon to your game, simply drag its prefab into the scene.

To use The package includes FBX files for each weapon, allowing you to modify and customize them as per your needs. Additionally, the package contains basic features that make it easy to change the texture color of the weapons, giving them a distinct look.

To customize a weapon, simply open its FBX file in your preferred 3D modeling software Like 'blender' , make the desired changes, and re-import it into your Unity project. The examples scene included in the package provide ALL weapons for customization and usage.

Also, (please note that if you plan to purchase multiple bundles, make sure not to import them into the same Unity project file. Each bundle should be imported separately, or you should delete the previous package before importing a new one or creating a new Unity project to avoid any issues.)
